A new comment has been submitted at [socotransmission.com](http://www.usda.gov/rus/water/ees/ea.htm).

COMMENT

Meeting Attended:

I was not able to attend a meeting

Important Issues:

Land Use (Agriculture, Residential, Recreation), Noise, Health and Safety, Visual / Aesthetic Resources, Proximity to Residences

Property Uses:

Agriculture, Residential

Comment:

The corridor that runs East of the railroad (not through Hatchet Ranch) would have the least impact on people and agriculture. There are fewer residents in that area. Although my property is not in the two Hatchet Ranch corridors, the power lines will be an eye sore that we and any visitors will have to pass to get to our home and most likely will be visible from my house. The impact on property values is also a major concern.
